

Culture Impact Teams of Tucson

*Equipping Christians to be Salt & light
by working to bring Godly values back to
our American Culture*

Purpose: Joining together and giving practical help to the pastors and congregation so we can make a positive and Godly Christian impact on our community, state and nation.

How: Partnering with **Family Research Council's** proven nation-wide network of "Culture Impact Teams" any church can easily establish a ministry which can come alongside the pastor to **Inform, Equip, Alert and Mobilize** both pastors and congregation on the culturally relevant issues of the day.

This non-partisan ministry provides vast knowledge, training and informational resources that promote good government according to Biblical principles, and without any political party affiliation.

Inform, Equip, Alert and Mobilize our Church:

- **INFORM:** The CIT will become the go-to people/team to assist pastor on important issues.
- While Pastor is in Authority, this efficient mission approach actually lessens his work load.
- **ALERT:** *Sound the Alarm* - keep pastor and church informed on serious moral issues that affect our community, state and nation. (Example: TUSD's Comprehensive Sex Education Agenda).
- **MOBILIZE** Coordinated Involvement – Encourage grassroots participation in tasks such as petition drives, voter registration, pregnancy support centers, public office, service projects, etc.
- **MEET AND PRAY** with other Churches and work together to elect godly representatives in all levels of government, and to multiply the impact of city-wide CIT activities.
- **EDUCATE** the Church on Biblical World View and Citizenship.
