

Prayer Points for Health Care Workers

Including and definitely not limited to:
nurses, doctors, technicians, dentists, optometrists, surgeons, etc.
in hospitals, clinics, nursing homes, private practices, etc.

1. Pray the Lord's protection of their health and well-being each day.
2. Pray for the Lord to bestow an extra measure of grace over their families. Many are single parents or have spouses who also work and are caring for the children.
3. Pray the Lord will work through hospital and clinic administrators to be conscientious of the medical equipment, tools and materials needed for their staffs to perform their tasks effectively.
4. Pray for the Lord to grant an abundance of patience as they work in stressful environments and with people (patients or family) who are worried, scared, angry, frustrated - stressed.
5. Pray those in the medical community will be able to find time in the midst of their days to minister to each other when needed.
6. Pray for clarity of mind and thought, and for guidance as they engage with each patient.
7. Pray for rest. Many go home to active families. Pray for good sleep and rest especially on days off. Pray for good rest for those who work 2nd shift – all night and for those who may work 24 hour shifts and are only able to catch short periods of time to rest.
8. Pray their walks with the Lord, along with trust and dependence on Him, will continue to grow.
9. Pray against burn-out as many hospital units and clinics are short staffed.

10. Pray for hospital administrators to provide fair compensation to all workers. Travel nurses are being hired to fill staffing shortages at hospitals and these travelers make almost twice as much as core staff which creates bitterness and resentment among the staff.
11. Pray for hospital administrators to act favorably toward their staff during staffing crises. Nurses, technicians, etc. are required to take care of increased number of patients with fewer support staff. As a result, patients are not seen as often leading to possible safety problems.
12. Please pray God's protection for healthcare workers who choose, for whatever the reason, not to get the vaccine. Pray against discrimination and for protection for their finances and jobs, especially in light of the current staffing shortages.
13. Pray for healthcare workers who are committed believers in Christ, that the Lord will "guide [their] steps by Your word, so [they] will not be overcome by evil." (Ps 119:133) And "May integrity and uprightness protect [them], because [their] hope, Lord, is in you. (Ps 25:21)
